PERIODICAL EXCHANGES

Arrangements have been made to exchange this Society's Journal with publications issued by the New York Botanical Garden and the New South Wales National Herbarium of Sydney.

These publications have been placed in the Library. They are full of most interesting and useful information and it is recommended that members read them. The following summary gives brief details of the contents of the issues received.

NEW YORK BOTANICAL GARDENS. The Botanical Review.

- Vol. 38 No. 1. Continental Movements and Indomalayan. Australasian dispersal of land plants. Conidiation in Neurospora.
2. The cerrado vegetation of Brazil.
3. Phytoalexins and other natural products as factors in plant disease resistance. Carbon dioxide exchange of plants in natural environments.
4. Storage of sugars in stalks of sugar cane. Disease resistance in warm season forage, Range and Turf grasses. Recent research on the Nematophagous Hyphomycetes.

NEW SOUTH WALES NATIONAL HERBARIUM Contributions.

FLORA OF NEW SOUTH WALES

Flora Series:

- Nos. 1 to 18 Introduction and conspectus of families.
Zamiaceae. Podocarpaceae. Araucariaceae.

- Pinaceae. Cupressaceae. Tyhaceae.
Sparganiaceae. Potamogetonaceae.
Ruppiaceae. Zannichelliaceae.
Najadaceae. Zosteraceae. Aponogetonaceae.
Posidoniaceae. Juncaginaceae.
Alismataceae. Hydrocharitaceae.
- 19 Gramineae.
- 21 - 22 Palmae. Araceae.
- 24 - 25 Flagellariaceae. Restionaceae.
- 27 - 28 Xyridaceae. Eriocaulaceae.
- 30 - 31 Pontederiaceae. Philydraceae.
- 34 Xanthorrhoeaceae.
- 101 Papilionaceae.
- 102 Geraniaceae.
- Vol. 2. No. 6 A Review of the Family Oleaceae.
- 1 A list of vascular plants occurring in the
New England Tablelands, New South Wales,
with notes on distribution.
- 2 Contributions to the Taxonomy of Australian
Grasses. 11.
- 3 Taxonomic Notes on Australian Plants.
Studies in the Taxonomy of Eucalyptus.
A new species of the Acacia decurrens Group.
The N.S.W. Species of Darwinia.
Notes on Lomandra.
Taxonomic and Cytological Notes on Acetosa
and Acetosella.
- 4 Calendar of Flowering Times of some Plants
of the Sydney District.
Dryopoa. Restio tenuiculmis. Restio
gracilis. Restio tetraphyllus.
Lepyrodia.
New Species of Juncus in Australia and N.Z.
- 5 A Monograph of the Genus Lastreopsis.
- Vol. 3. No. 6 Supplement to the Key to the Genera of
Rhodophyceae (Red Algae).
A Census and Key to the Species of
Rhodophyceae.
- Vol. 4. No. 1 Xyris gracilis Complex.
A new species of Agrostis.
Algae of the Gilbert Islands.

- Vol. 4 No. 1 Further records of Algae from New Caledonia.
New Taxa of Acacia from Eastern Australia.
Notes on Xanthorrhoea in Eastern Australia.
Notes on Acacia deanei.
- 2 The Status and Relationships of Typha.
New Species in Eleocharis.
Notes on Australian Taxa of Acacia.
- 3 A Toxic Alga in N.S.W.
Some observations on the Lemnaceae.
Viscum flexicaule. Platylodium.
Bossiacea. Templetonia.
Notes on Australian Taxa of Acacia No. 2.
- 4 A Taxonomic Study of the Genus Poa in
Australia.
- 5 A new name for Poa exilis. Lomandra
 glauca.
Thysanotus virgatus sp. nov.
A new species of Acacia from Northern
Territory.
Notes on Austr. Taxa of Acacia No.3.
Arthrochilus.
New Taxa and Combinations in Eucalyptus.

Flora of New South Wales. No. 58A. 1971

Viscaceae.

VELT AND FLORA

Mr. John Martley, a former member of our Society, who now resides in Cape Town has forwarded five issues of Veld and Flora. These are most interesting publications issued by the South African Botanical Society. They have been placed in the Library. We appreciate Mr. Martley's kindness in sending these magazines.
