Ordinary meetings of the Society are held on the evening (8 p.m.) of the first Friday of each month, in lecture room A5, University of Canterbury, Ilam (just south of the Law School carpark). A very wide range of botanical subjects is covered by the invited speakers. Field excursions visit places of botanical interest on the following day. Workshops to help members become more familiar with particular groups of plants, or other plant topics, are held from time to time. Highlight events are the December field camp (usually to a

Canterbury venue) and the January field camp (often to locations in other parts of the South Island). Our Society is a congenial one; lifetime friendships are formed.

The Society participates in activities such as the Gardenz plant show. It also makes submissions to the relevant authorities on matters of concern in conservation, or the environment.
